# istella = intelligent + stella

The brand **istella** is a compound word of intelligent and star. The istella safe is a superior fire safe certified by Swedish Fire Technology Institute SP.

## Features

### Magic Touch Panel

When touching diplomat logo, the digit numbers and icons appear on the surface. This technical system increases security and convenience in use.

### Motorized Lock

With motor and sensor the boltwork is automatically controlled in opening and closing the safe.

### Inside LED Light

The inside LED light with 8 LED chips makes it convenient and easy to see the inside matters in darkness.

### Dual Alarm System

Two independent alarms are installed for alert with horning at 110dB when the safe is impacted outside and gets tilted at over 45 degrees. (External alarm is optional.)

### 60/90 paper Fire Resistance

The safe is certified fire resistance at 1,000°C by SP and protects the inside matters from the heat in a fire.

P (Sweden) KS (Korea)

### Smart Digital Lock on Touch Panel

It has the features of dual locking, scramble numbers before and after a user's code and paralysis function for more security.
